(54) SYSTEM OF RETRIEVING PARTICIPANT OF CONFERENCE TELEPHONE SET

(57)Abstract:

PURPOSE: To allow a sponsor to make voice conformation of the presence of participants unnecessary by checking the presence of the participants in a conference corresponding to a prescribed special number selected by the sponsor.

CONSTITUTION: A means 212 storing telephone numbers of participants selected in registering conference reservation information by a sponsor and a means 211 storing the telephone numbers of the participants 4 attending the conference actually are provided to a conference telephone system. When the sponsor selects a prescribed specific number to confirm the attendance of participants at the beginning of the conference, the attendance of the participants to a conference talking is checked by providing means 213~216 checking the stored content of the two means 211, 212 and informing the attendance to the conference telephone system. Thus, it is possible to inform the attendance of the participants in response to the request of the sponsor and the sponsor confirms the attendance of the participants without error.
